## General Driving Advice:

- If you are driving from outside the city you may want to take a look at MapQuest for long distance driving directions. From the far west, north or south find the route that gets you on either I90 or I94. The exits recommended are Irving Park for the Kennedy or Foster for the Edens. There are other exits as well but these seem to have the best traffic flow. Don't take Lawrence in from the expressways on a Saturday. It's clogged with shoppers.
- If you're coming from the south in the city Ashland Ave. is a good through street. If you're closer to the Lake, you may want to take Lakeshore Drive north to one of the three exits marked.
- If you are coming from the near north Western to Wilson works well or Lakeshore Drive to one of the three exits on the map. **PARKING** - most parking is to be found on Ravenswood on the east side of the elevated track. The street is one way north so enter either on Montrose or Wilson.
